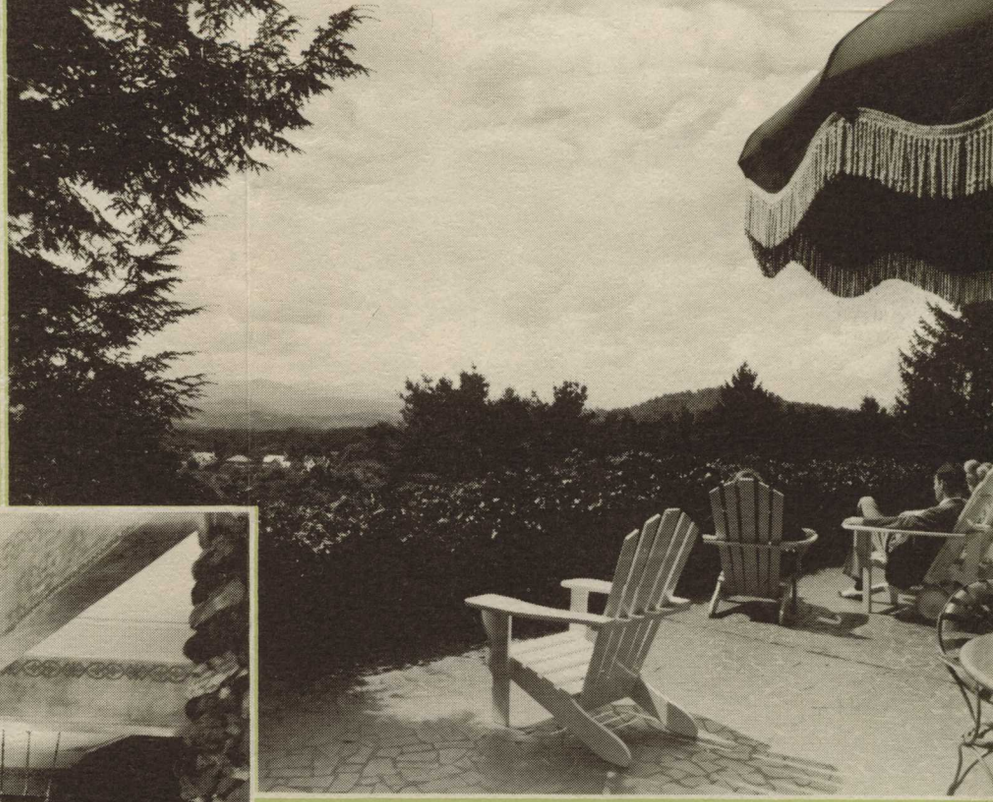
What an entrancing setting for a perfect vacation • GROVE PARK

Throughout each year a distinguished and congenial clientele returns to Grove Park . . . to renew pleasant acquaintances and to find rest and restoration in the many and agreeable activities so enjoyable in the bracing pine-scented climate of its glorious setting. When — and if — you feel like it . . . there's golf at the front door. There's a fine swimming pool . . . clay tennis courts . . . skeet shooting . . . horseback riding and hiking over picturesque mountain trails. Guests have the privilege of visiting the magnificent gardens and grounds of some of the nearby estates . . . and there are also the less strenuous but engaging sports of croquet, horseshoes, shuffleboard, and archery to challenge one's skill. Further provision for entertainment includes dancing and music, and the social program includes events for children. And if it's just plain rest you seek . . . where could one find a more inviting spot or so lovely an outlook as the veranda and terrace from which to look off at the distant mountains!

ALWAYS SOMETHING DOING . . . SOMETHING TO DO!

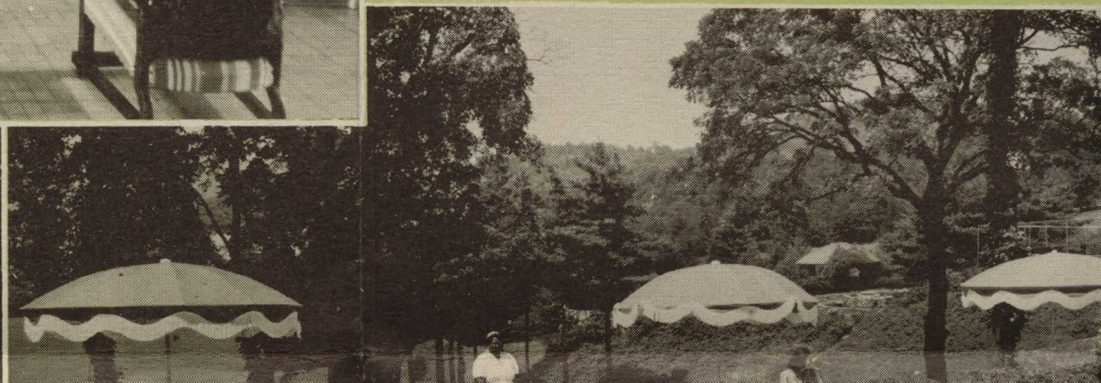


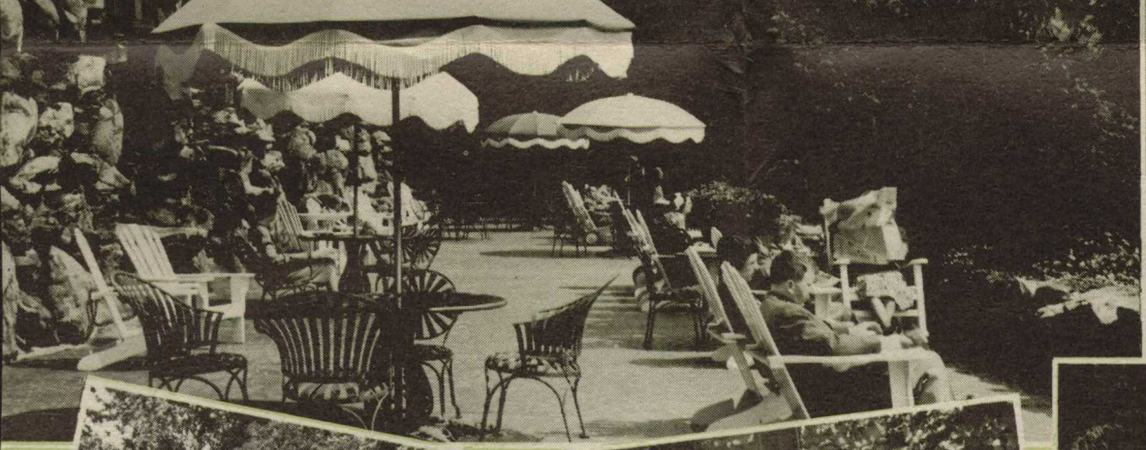
On stormy days or for the evening hours . . . what an attractive place is the Big Room in which to dance, listen to music, play cards or just to sit and chat or read!

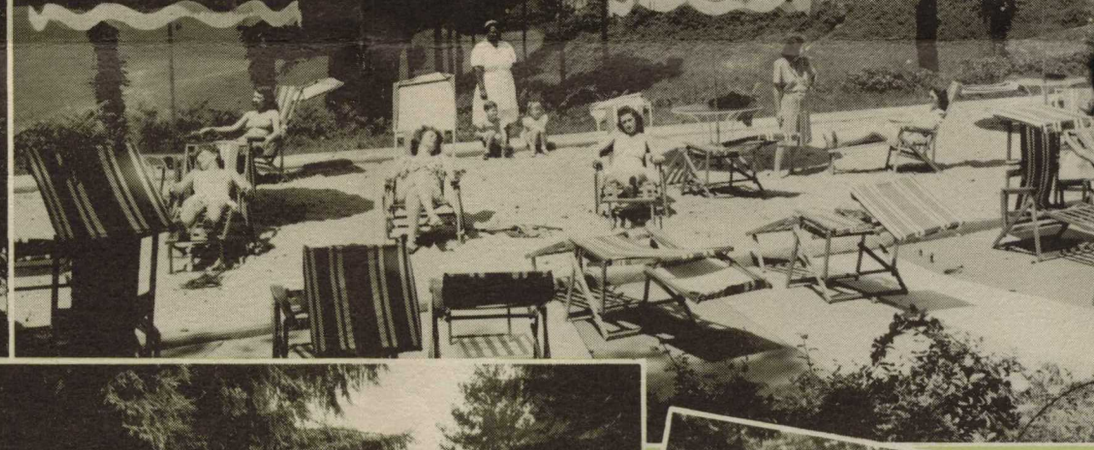
From "Sunset Terrace" nature puts on an entrancing show across peak after peak of glorious mountain ranges, with mile-high Mount Pisgah crowning all.

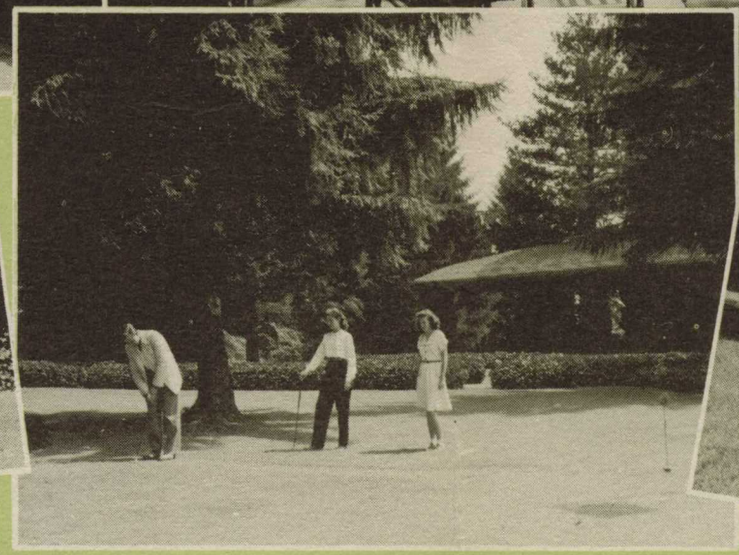
When you feel like just taking it easy, the West terrace invites you to loaf amid the cool shadows of superb natural greenery.

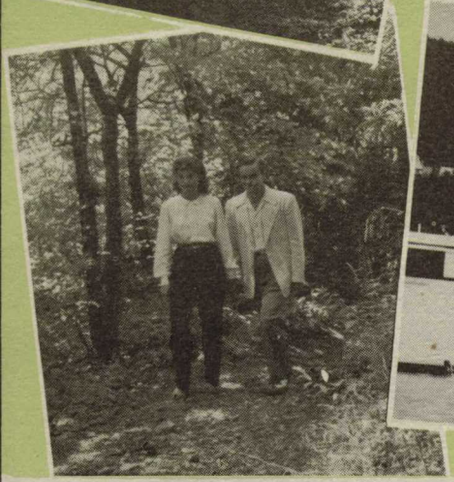
Against a backdrop of mountain scenery the sun shines warm and bright through the clear highland air for sunbathers on the hillside Sun Deck.

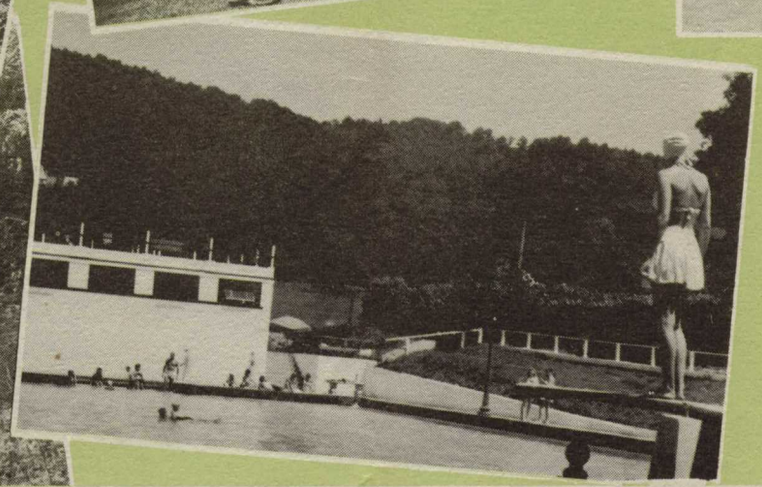












Sports and games for young and old provide healthful recreation and whet keen appetites for the delicious food served by one of America's most accomplished kitchen staffs!
